

# The Bulletin

Your Weekly News Update from The Suthers School

## In Brief:

- ◆ **Our Word of the Week** was 'defiantly'.
- ◆ **Get involved**—as we look towards the exciting future of The Suthers School, we are keen to keep in touch with what parents think. If you would like to be involved in a parent forum, please email Mrs Braithwaite.
- ◆ **LAST CHANCE to register** for the FREE E-SAFETY WEBINAR for parents run by [gooseberryplanet.com](http://gooseberryplanet.com). Click [here](#)
- ◆ **Looking forward to our** Spring Welcome Event and a #royalwedding themed bake sale for all new students and their parents on Saturday 19 May.
- ◆ **Students are getting set for** the next Progress Board Exams taking place in school from 11-15 June.
- ◆ **Well done to all students** involved in filming for our friends in Malaga, Spain as part of their UK celebration event. And a special thank you to Miss Barker!

## More Filming and Future Planning

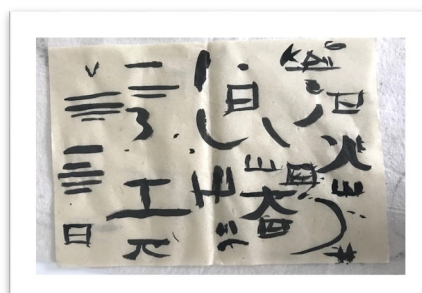

This week has seen many of our students taking part in a film project in support of Padre Jacobo school in Malaga, Spain where they are holding a Celebrate UK Day. Special thanks to Miss Barker for helping to co-ordinate this—and to Celia for creating the connection! Hopefully we will receive a video from the students at Padre Jacobo in the future too!

In fact, as we eagerly await formal approval for the new build, this week has very much been about looking ahead, with events organised for our new Year 7s (who will be joining us for the first time this Saturday for a welcome event) and confirmation of two exciting dates for the diary—a Futures Day at MV16 college in Melton Mowbray and a #madeinnuast technology day at the Nottingham University Academy of Science and Technology where students will get to design, create and walk home with their very own product.

Here's hoping you all enjoy the sunshine this #royalwedding weekend!

## TOP MARKS ALL ROUND AS STUDENTS GO BACK 6,000 YEARS

Our Chinese Club students had a great time getting to grips with the ancient art of Chinese Calligraphy this week, learning how to hold and name key parts of the brush, how to 'melt' ink and how to draw key shapes and lines.
