BRILLIANT BOOK AWARD LAUNCH

Our Brilliant Book Award team were wowed by award-winning author Kim Slater this week when they attended a launch event in Mansfield. Not only did many of them walk away with signed copies of Slater's books but the local author also inspired them with extracts from her novels, insights into how she got started and clues as to where she gets the ideas for her brilliant stories. Kim Slater was last year's winner and her latest book, *Smart*, is already in our library. As reigning champion, Slater had the honour of announcing the six short-listed titles our team will be reading in the coming months. We are looking forward to reading their reviews and finding out whether once again TSS picks the winner! To find out more and see the books that have made the shortlist, please click [here](#).

SCIENCE AMBASSADOR TRAINING

Ten of our top scientists travelled to Kirk Hallam Academy, Ilkeston, this week for the first round of training to become Science Ambassadors. They learned about communicating scientific concepts and began preparing to teach taster sessions.

TSS SCHOOL BUILD UPDATE

We are still awaiting feedback from the ESFA and so have no news this week but would like to invite all parents to attend an information event early in the new year. Letters to follow soon.
